Summer Entertaining

Some of life's best moments happen around the holidays. Family gatherings, fancy meals, and holiday decorations fill our homes with joy... and messes. With EcoSense®, you can enjoy those moments without worrying about how you'll clean everything up afterwards!

In addition, this guide also provides other simple solutions and ideas for wellness within the season. We hope it takes some pressure off any entertaining woes, and instead turns the chaotic holiday season in a season of calm and joy. Let's celebrate the special moments.

Goodbye BBQ grease!

Goodbye BBQ grease! Take on the toughest messes with powerful, plant-derived grease-cutters.

Tip: Pack MelaMagic Wipes for the park.

Clean on-the-go.

Love entertaining, but worried about spreading germs this season? One convenient wipe kills 99.9% of household germs.

Tip: Safe to use around children, pets, and food.

Accidents happen.

Fight stains. Roll away the stains and look your best no matter what life throws at you.

You've got stresses and messes? No worries, we have you covered.

Tip: Little finger prints and pet marks on windows, mirrors, and stainless steel appliances? Safely wipe away for streak-free and stress-free results.

Tip: The effective all-rounder cleaner for every surface.

Carpet spills?

Got a Stain? Get Sol-U-Mel! The natural solvent power of *Melaleuca* Oil easily dissolves the toughest stains, works naturally without harsh chemicals.

Tip: Use undiluted to stop that carpet spill from staining.

Stressed out?

For when the season has gotten too silly and you need to find your serenity NOW!

Tip: Roll onto your temples and neck after a stressful day to feel *Pure Clear Relief* instantly!

Download the EcoSense Cleaning Handbook for more tips and tricks to keep your home fresh and clean.

Hydration reinvented.

Turning plain, boring water into a delicious, refreshing drink! With no calories and no sugar, this soft drink alternative is the perfect way to get your family drinking more water.

Tip: Use your soda streamer for a fizzy drink alternative.

In every cup of *Mountain Cabin Premium Coffee* you brew, you'll experience decadent flavours of gooey toffee or silky rum and raisin. Awaken your senses.

Barista Style Iced Coffee

1. Make a strong 250-300ml coffee. (Don't worry, this will be diluted with the ice.)
2. Add a generous amount of ice to a glass.
3. Top with coffee, then add 2-4 tbsp milk.
4. Feeling fancy? Top with whipped cream and chocolate shavings.

We all know of the benefits of Melaleuca Oil. But did you know there are also wellness properties associated with the Melaleuca Leaf?

Iced Tea Pitcher

1. Steep 3-5 teabags in 2 cups of boiling water.
2. Add sugar or honey, and the juice of half a lemon.
3. In a pitcher, garnish the sides with slices of fruit of choice. Then fill the pitcher with ice.
4. Add the hot tea and stir.
5. Serve the tea over ice with fruit slices.

First aid relief.

The first stop when caring for your family. From minor scrapes to insect bites and everything in between, our first aid essentials have got you covered with the power of *Melaleuca Oil*.

Tip: Oven burn? *MelaGel* will soothe that burn with a protective layer.

Sun Shades has your family covered all summer long.

Tip: Oops, too much sun? Soothe skin after exposure with healing aloe vera and *Melaleuca Oil*.

Tip: Apply 20mins before sun exposure. Don't forget to reapply!

Send germs sailing down the drain.

Tart, juicy pomegranate mingles with light, fresh-cut herbs and a spritz of citrus.

Tip: Wash those germs away! Protect yourself and your family from germs with the disinfecting power of *Sol-U-Guard*.

When you're on the go, defend yourself and your family and friends from germs. *Clear Defense* has been clinically proven to kill 99.99% of germs.

Tip: Keep the world off your hands! Kill germs on the go.

Gifting for Her

Excitement fills the air this festive season. Be daring and try a new look. Don't hold onto all of the fun for yourself, give the gift of glam.

AFTER THE STORM

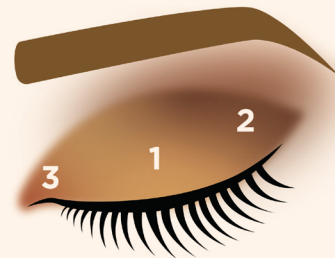

Step 1: Use Dew Drop to cover the entire eyelid, leaving the inner corner of your eye untouched.

Step 2: Use Wet Earth to add dimension by shading the crease of your eye (from outer corner to middle). Use the *Sei Bella Blending Brush* to blend the edges of the crease to reduce any harshness.

Step 3: Finish by placing Cloud at the inner corner of your eye and brow bone to create a lifted look.

MORNING COFFEE

Step 1: Use Chai to cover the entire eyelid, leaving the inner corner of your eye untouched.

Step 2: Use Mocha to add dimension by shading the crease of your eye (from outer corner to middle).

Step 3: Finish by placing Cold Foam at the inner corner of your eye and brow bone to create a lifted look.
